DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 3 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites the limitation "the space" in lines 5-6. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 3 recites the limitation "the supporting member" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 5 recites the limitation "the engaging member" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-7 (as best understood) are rejected under 35 U.S.C. 102(e) as being anticipated by Kimura et al. (U.S Patent 6,108,716) .

a. As per claims 1 (as best understood) and 7, Kimura discloses an electronic apparatus detachably connected to an input device, comprising (see Figures 5 & 6)

- a main unit (10),
- a display unit (30) rotatably(95) attached to the main unit, (col.8, line 43)
- a retaining mechanism (116) retaining at least one portion of the input device (100) into the space which is formed by the display unit and the main unit [(col.11, lines 59-67), (col.12, lines 1-30), (note, a recess formed by the display unit (30) and the main unit (10) in Figure 5)]

b. As per claim 2, Kimura discloses the retaining mechanism (fig.5 &6, 116) comprising at least one supporting member (fig.5 &6, 117b),

c. As per claim 3(as best understood), Kimura discloses the supporting member (fig.10, 41a) is mounted so as to be storable in the main unit when the input device is not being stored.(col.12, lines 22-30)

d. As per claim 4, Kimura discloses the retaining mechanism (116) comprising an engaging member (fig.10, 41) engaging the main unit and the input device.
(col.12, lines 10-13)

d. As per claim 5 (as best understood), Kimura discloses the engaging member (fig.10, 41b) is mounted so as to be storable in the main unit when the input device is not being stored. (col.12, lines 22-30)

e. As per claim 6, Kimura discloses electronic apparatus further comprising:

- at least one detector (fig.15, 105) detecting each of a storage and a removal operation of the input device (col.10, lines 24-30)

- control means controlling a predetermined operation of the electronic apparatus according to a signal of the detector (col.22, lines 18-27), (col.10, lines 24-42), (col.12, lines 53-65)

Response to Arguments

7. Applicant's arguments filed January 21, 2003 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., placing the keyboard between the main unit and the display unit) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
